

Author index of Volume 68

Alanen, M., T. Lundkvist and I. Porres, Creating and reconciling diagrams after executing model transformations	(3)	155–178
Balogh, A., <i>see</i> D. Varró	(3)	214–234
Boyland, J.T., <i>see</i> G. Hedin	(2)	63
Brabrand, C. and M.I. Schwartzbach, The metafront system: Safe and extensible parsing and transformation	(1)	2–20
Bryant, B.R. and J. Saraiva, Report on selected papers from LDTA 2003 (<i>Editorial</i>)	(1)	1
Cabot, J. and E. Teniente, Transformation techniques for OCL constraints	(3)	179–195
Gray, J., <i>see</i> A. Pierantonio	(3)	111–113
Hedin, G., <i>see</i> E. Magnusson	(1)	21–37
Hedin, G. and J.T. Boyland, <i>Preface</i>	(2)	63
Iversen, J.B., An action compiler targeting Standard ML	(2)	79–94
Johnstone, A. and E. Scott, Automatic recursion engineering of reduction incorporated parsers	(2)	95–110
Jouault, F. and I. Kurtev, On the interoperability of model-to-model transformation languages	(3)	114–137
Jouault, F., <i>see</i> I. Kurtev	(3)	138–154
Kurtev, I., K. van den Berg and F. Jouault, Rule-based modularization in model transformation languages illustrated with ATL	(3)	138–154
Lundkvist, T., <i>see</i> M. Alanen	(3)	155–178
Magnusson, E. and G. Hedin, Circular reference attributed grammars — their evaluation and applications	(1)	21–37
Pierantonio, A., A. Vallecillo, B. Selic and J. Gray, Special issue on model transformation (<i>Editorial</i>)	(3)	111–113
Porres, I., <i>see</i> M. Alanen	(3)	155–178
Saraiva, J., <i>see</i> B.R. Bryant	(1)	1
Schwartzbach, M.I., <i>see</i> C. Brabrand	(1)	2–20
Scott, E., <i>see</i> A. Johnstone	(2)	95–110
Selic, B., <i>see</i> A. Pierantonio	(3)	111–113
Teniente, E., <i>see</i> J. Cabot	(3)	179–195
Tratt, L., Model transformations in MT	(3)	196–213
Vallecillo, A., <i>see</i> A. Pierantonio	(3)	111–113
van den Berg, K., <i>see</i> I. Kurtev	(3)	138–154
Van Wyk, E., Implementing aspect-oriented programming constructs as modular language extensions	(1)	38–61
Varró, D. and A. Balogh, The model transformation language of the VIATRA2 framework	(3)	214–234
Waddington, D. and B. Yao, High-fidelity C/C++ code transformation	(2)	64–78
Yao, B., <i>see</i> D. Waddington	(2)	64–78
